

## STUDIO

Uppdaterad 2011-08-02

 The image shows the ART Tube MP Tube Microphone Preamplifier. It is a black, rack-mountable unit with a silver faceplate. The top of the faceplate has the text "Tube MP" in large orange letters, with "TUBE MICROPHONE PREAMPLIFIER" in smaller white letters below it. On the right side of the faceplate, "TUBE MP" is written vertically in red. The unit features several knobs and buttons on the front panel.	<p>ART TUBE MP Rör Preamp för mikrofoner. Har massor med fiffiga finesser Som gör den oundgänglig i studion eller i liveriggen!</p>	<p><b>600:-</b></p>
 The image shows the ESI MAYA44 USB audio interface. It is a black, rectangular device with a clear plastic top cover. The top of the device has the text "High Quality 4-in / 4-out USB Audio Interface" and "MAYA44" in large, stylized letters. A "USB" logo is also visible. The front panel has several gold-plated connectors. The device is shown in its clear plastic packaging.	<p>ESI MAYA44 USB Apbilligt 4kanaligt ljudkort med USB</p>	<p><b>499:-</b></p>
 The image shows the iRig Mic, a portable recording device. It consists of a black microphone on a stand, connected to a small black device (the iRig) which is connected to an iPhone. The iRig device has a red and black design. The iPhone is shown in its packaging, which has the text "iRig Mic" and "For iPhone" on it. The iRig device is also shown separately at the bottom of the image.	<p>IRIG IMIC Omvandlar din Iphone till en inspelningsstudio</p>	<p><b>499:-</b></p>
